Sowon Ham . Jarvis Consulting

I am a recent graduate of University of Toronto - St. George Campus and I studied statistics and mathematics in my degree. Due to my passion in the DA/BA/BSA field I pursued to a profession that suits my strength and my likings. Jarvis Consulting Group is the first place that I was able to thoroughly communicate with and resulted in a very positive manner to work here as one of the employee. It is such an honor to be working in a field that is continuously growing every day and see everyone including myself studying new subjects every day. Particularly, while I was studying in my field the process of gathering data, building statistical models, and analyzing through mathematical methods fascinated me to a great extent. I wish to pursue in this field to continuously learn and apply old and new methods of data analysis to play with data.

Skills

Proficient: R/RMarkdown/LaTeX, Linux/Bash, RDBMS/SQL, Agile/Scrum, Git/GitFlow, AutoIt, Docker, Statistics (A/B Testing, Hypothesis Testing, Time Series Analysis), Experimental Design

Competent: Stochastic Processes, Microsoft Excel, Java, Julia, Python, Forecasting, Tidyverse

Familiar: Virtual Network Computing (VNC), Verilog, Machine Learning (Neural Network, Cluster Algorithms), Forecasting, Cloud Networking
